TRAINING

Matrix Computers

August 2024 - September 2024

MERN Stack Development

Jaipur, Rajasthan

- Completed MERN stack development training, acquiring practical experience in creating interactive and scalable web applications.
- Implemented key web development principles, including responsive design, performance optimization, and user friendly interface design.

Learn and Build

July 2023 - August 2023

FRONT END Development

Jaipur, Rajasthan

- Completed front-end development training with hands-on experience in building responsive and user-friendly web applications.
- Applied best practices such as responsive design, user experience optimization, and performance tuning.

PROJECTS

CareerHunt

- Developed a job portal website with separate logins for students and recruiters. Enabled recruiters to create job postings, manage applications and hire candidates. Allowed students to apply for job openings and view application status (accepted, pending, rejected).
- Developed a secure backend system for efficient data storage and management of user information and job applications.

Food Ordering Website

- Developed a food ordering website with a user-friendly interface, enabling customers to place orders and browse menu items seamlessly.
- Utilized HTML, CSS and JavaScript for the frontend to ensure a responsive user experience.

EXTRA CURRICULAR ACTIVITIES

- Technical Lead at Tech-Fest Renaissance.
- Participated in Smart India Hackathon (SIH 2022).
